EXPERIENCE

Gjirafa, Inc - Frontend Developer | Prishtine, Kosovo   Aug 2022 - Present
- Lead frontend developer for a full-end-to-end video platform ecosystem, designing and developing highly engaging user-facing interfaces. Achieved a user base of 10+ million through the delivery of cutting-edge front-end solutions that optimized user experience and satisfaction.
- Integrated front-end with 5+ APIs and services, including payment gateways and social media platforms, to deliver high-quality products; reduced average page load time by 50% and boosted user engagement by 30%
- Spearheaded cross-functional collaboration between design, product, and engineering teams to understand requirements and deliver a seamless user experience; ensured the final product met client needs and increased user retention by 45%
- Implemented features that included a JavaScript player resulting in a 40% gain in user engagement; Integrated a video playback feature that expanded average session duration by 20%

WebOrigo - Frontend Developer | Budapest, Hungary   May 2022 - Jul 2022
- Managed technical tasks, debugged, and developed the front end of five major projects, using a range of technologies and collaborating with cross-functional teams to ensure timely delivery and exceptional user experiences
- Led the development of projects that have garnered a vast audience of over a million monthly users, providing them with seamless navigation and engaging content

Pythys Software - Full Stack Software Developer | Kuwait City, Kuwait   Mar 2021 - Apr 2022
- Architected a highly scalable live-streaming platform from scratch that leveraged microservices architecture; integrated with several third-party APIs and enabled real-time video and chat communication among users
- Managed a 5-member cross-functional (product, engineering, sales, support) team and coordinated with six business partners toward the successful launch of an e-commerce platform
- Consistently maintained open and effective communication with clients, ensuring their specifications were met and products delivered with superior quality
- Reviewed and provided valuable feedback on over 300 pull requests, ensuring optimal code quality and seamless integration with project goals

Starlabs - Python Developer Intern | Prishtine, Kosovo   Dec 2020 - Feb 2021
- Completed a 12-week internship program collaborating with team members, and expanding my skills in web development, data structures, algorithms, and code architecture
- Contributed to the development of a Q&A platform for Kosovo students using Python, Django, PostgreSQL, HTML, and CSS to enhance their learning experience and facilitate academic success
- Conducted a comprehensive research study with a sample size of 1000 students to gather valuable insights and feedback about the Q&A platform utilizing various data analysis techniques
